Determination of Phthalates	-	
No requirement was given This test method is not suitable for this type of material. Test was performed due to vendor's request		

**REMARK:** Original samples are kept for 3 months and all technical records are kept for 5 years unless otherwise specified. If requested, measurement uncertainty will be reported. But unless otherwise specified, measurement uncertainty is not considered while stating compliance with specification or limit values. The reported uncertainty is based on a standard uncertainty multiplied by a coverage factor  $k=2$ , providing a level of confidence of approximately 95 %. The declaration of conformity was given in accordance with the Simple Acceptance Decision Rule. (without considering the level of confidence and measurement uncertainty, evaluation of suitability or non-conformity based on whether the test result obtained is only within the specified limits) Tests marked (\*) in this report are not included in the accreditation schedule.

This report shall not be reproduced other than in full except with the permission of the laboratory.

**TEST RESULTS**

**DETERMINATION OF PHTHALATES; CPSC-CH-C1001-09.4:2018(\*)**

Test sample is extracted in suitable organic solvent in extraction device.  
The extract is analyzed by GC-MS and result is given.
